

Eastman Naia™ cellulosic yarn

wood pulp supplier source

Eastman Naia™ cellulosic yarn is produced from trees harvested from sustainably managed forests and plantations located across North America, Europe, and Brazil. It is made from dissolving-grade wood pulp sourced from qualified suppliers who comply with the standards of internationally recognized forest certification programs. These certifications can be found online.

Eastman qualified suppliers of pulp include:

- Rayonier Advanced Materials
- Bracell
- Cosmo Specialty Fibers

If you have any questions, please contact your Eastman Naia™ cellulosic yarn representative.
